Re: PS Docket No. 07-250  
*Ex Parte* Presentation

Dear Ms. Dortch:

On May 29, 2008, representatives from the Alliance for Telecommunications Industry Solutions (“ATIS”) Incubator Solutions Program #4 - Hearing Aid Compatibility (“AISP.4-HAC”) met with representatives from the Federal Communications Commission’s Wireless Telecommunications Bureau (“WTB”). The purpose of the meeting was to make the FCC aware that the wireless industry and advocates representing consumers with hearing loss have reached consensus on a general set of principles addressing hearing aid compatibility of handsets with multiple frequency bands and/or modes for which no HAC standard exists. These principles have been filed separately in accordance with the *First Report and Order* in the above-referenced docket.

In attendance, representing the WTB were: Jeffrey Steinberg, Deputy Chief, Spectrum and Competition Policy Division; Peter Trachtenberg, Senior Attorney Advisor; Michael Rowan, Special Counsel; Thomas McCudden, Attorney Advisor; and (via phone) Christina Clearwater, Legal Advisor.

The individuals representing the AISP.4-HAC at this meeting were: Harold Salters, Director, Federal Regulatory Affairs, T-Mobile USA, Inc.; Shellie Blakeney, Senior Counsel, T-Mobile USA, Inc.; Karen McConnell, Cart Reporter, Metro Reporters, Inc.; Deirdre Cheek, Attorney, ATIS; Thomas Goode, General Counsel, ATIS; and (via phone) James Turner, Technical Coordinator, ATIS. Also participating in the meeting, as representatives of consumers with hearing loss, was Lisa Hamlin, Director Public Policy & State Development, Hearing Loss Association of America and Karen Peltz-Strauss, Consultant, RERC on Telecommunications Access.
