Re: WC Docket No. 13-97

Dear Ms. Dortch:

On February 6, 2014, representatives from the Alliance for Telecommunications Industry Solutions' (ATIS) Industry Numbering Committee (INC) met with Henning Schulzrinne, Chief Technology Officer with the Federal Communications Commission (FCC), during the INC's industry meeting.

During the meeting, representatives from INC discussed permissive ten digit dialing, as well as the proposed FCC numbering workshop(s) and test bed. INC representatives expressed interest in supporting the workshop and the open and voluntary test bed, noting that the industry has significant experience in establishing test beds associated with key network functions. Dr. Schulzrinne asked about Best Practices related to numbering and INC noted that a significant number of Best Practices and guidelines have been developed by the industry.

A copy of this letter is being submitted on the record of the above-referenced docket. If there are any questions, please contact the undersigned.

Sincerely,

Thomas Goode  
ATIS General Counsel

cc: Henning Schulzrinne, Chief Technology Officer
